SUBJECTS

Abortion, chorionic tissue changes in, 157
—, early, diagnosis by periodic acid-Schiff reaction on endometrium, 157
—, habitual, and toxoplasmosis, 156
—, —, causes and treatment, 854
—, —, due to cervical incompetence, 863
—, —, surgical closure of incompetent cervix in, 1028
—, influence on tumour growth in rats, 685
—, sex determination of ova in, 674
—, therapeutic, in Portland, Oregon, 674
—, threatened, chlorpromazine treatment, 336
—, —, outcome of pregnancy after, 512
—, —, vaginal smears in diagnosis and treatment, 157
—, —, variations of chorionic gonadotrophin levels in, treatment, 513
Acetazolamide for oedema of pregnancy, 336
— in pre-eclamptic oedema, 154
Acroparaesthesiae in pregnancy, aetiology, 855
Adenocarcinoma of corpus uteri, vaginal metastases from, 1037
Adhesions, intra-uterine, clinical aspects, 860
—, post-operative, prevention, 1039
Adrenalectomy, bilateral, for Cushing's syndrome, pregnancy and delivery after, 337
Afibrinogenaemia after recurrent accidental ante-partum haemorrhage, 156
— in eclampsia causing severe haemorrhage, 335
Age, maternal, and foetal oxygenation, 342
Aldosterone, function in metabolism of sodium and water in pregnancy, 153
Amenorrhoea after prolonged administration of chlorpromazine, 672
—, long-acting oestrogen compounds in, 343
2-Amino-5-nitrothiazol, *see* Tritheon
Amnion permeability to proteins, 854
Amniotic fluid, cytological examination in prenatal diagnosis of sex, 856
— —, detection by von Numers fat staining method and Neuhaus crystallization method, 678
— —, origin of protein in, 510
— —, protein structure, electrophoretic study, 1025
Anaemia, haemolytic, in association with dermoid cysts, 860
— of newborn associated with appearance of foetal haemoglobin in maternal circulation, 163
Anaesthesia, general, in Caesarean section, 166
—, inhalation, and oxygen therapy for foetal anoxia, *in utero*, 1031
—, obstetrical, recent advances, 517
—, saddle-block, in breech delivery, 340
Anovulation, radiotherapy, 168
Anoxia, foetal, *in utero*, oxygen therapy and inhalation anaesthesia for, 1031
Anticoagulants in pregnant women with previous severe toxaemia, 336

Anticoagulants, routine post-operative, in prophylaxis of thromboembolic complications, 172
Anuria after recurrent accidental antepartum haemorrhage, 156
Aorta coarctation, pregnancy and, 336
Appendicitis, pelvic, and acute conditions of uterine appendages, differential diagnosis, 519
Asphyxia *in utero*, oxygen therapy and inhalation anaesthesia for, 1031
— neonatorum, endofunicular blood transfusion in, 163

Bilirubin level in placental blood serum, 671
Birth rate in Belgium, statistical study, 680
Bladder injuries after radium treatment of cervical carcinoma, 523
Blood flow, uterine, during labour, 1030
— groups, ABO, incompatibility in aetiology of haemolytic disease of newborn, 163
— — in pregnancy, clinical value of serological examinations related to, 675
— of umbilical cord, oxygenation values in postmature infants, 680
— sugar levels in newborn of diabetic mothers, 342
— supply to ovaries, experimental and morphological studies, 334
— transfusion, endofunicular, in asphyxia neonatorum, 163
— —, exchange, continuous, 672
— — in obstetric haemorrhage, blood volume estimations and, 156
— —, intra-aortic, for shock and haemorrhage, 862
— —, placental, method of acceleration, 1032
— volume of newborn infant, influence of delayed ligation of umbilical cord on, 516
Body weight, *see* Weight
Bowel function, post-partum, 1033
Breast engorgement, oxytocin treatment, 856
—, passage of radioactive iodine through, clinical observations, 340
— radiology in pregnancy diagnosis, 153
Breech presentation, management, 339
— —, saddle-block anaesthesia in, 340
9 α-Bromo-11-ketoprogesterone, oral, progestational activity, 343
"Bucladin", *see* Buclizine hydrochloride
Buclizine hydrochloride in hyperemesis gravidarum, 674, 1026

Caesarean section, general anaesthesia in, 166
— — in Johannesburg, ten-year survey, 680
— — in New York City, incidence and mortality, 679
Caesarean section, oxygen saturation of newborn infant after, 163
— —, perinatal mortality of, 518
— —, post-mortem, 166
— —, transverse extraperitoneal, defence of, 166
Capillary changes during menstrual cycle and puerperium, microscopical study, 853
— fragility secondary to ovarian insufficiency causing haemorrhagic diathesis, 683
Carbohydrate tolerance in pregnancy, labour and puerperium, intravenous glucose loading test of, 513
Carcinoma, *see also* Organ affected
—, genital, chordotomy for relief of pain in, 521
—, —, classification, 672
—, —, hormonal influence of pituitary transplants in, 686
—, intra-epithelial, diagnosis and treatment, 170
Carpal tunnel syndrome in pregnancy, 855
Cartilage, heteroplastic, in female genital tract, 861
Castor oil in induction of labour, 1030
Castration by irradiation, long-term effect, 349
—, effect of oestrogens and prednisolone on genital apparatus of guinea pigs after, 344
—, influence on tumour growth in rats, 685
Cauterization, cervical, complications after, 526
Cervicitis, vaginal administration of tetracycline tablets in, 861
Cervix uteri and cervical hymen, zone of transition from one type of epithelium to the other, 516
— — carcinoma, basal cells in vaginal smears in, 348
— — —, colposcopic detection, 346
— — —, cytological diagnosis, 171, 521, 686
— — —, cytological prognosis of radiotherapy, 522
— — —, diabetes with, 344
— — —, effect of age of menarche on reproduction in patients with, 522
— — —, epithelial, clinical observations, 347
— — —, histochemical study of precancerous conditions, 862
— — —, histology, cytology and clinical course, long-term study, 345
— — — in Indian women, 522
— — — *in situ*, analysis of cases in Germany, 672
— — — *in situ*, histochemical evaluation, 1038
— — — *in situ* in pregnancy, prevalence and post-partum persistence, 338
— — —, *in situ*, retrospective review, 347
Cervix uteri carcinoma, incipient, vascular pattern in, 345
— — —, influence of routine colposcopy on stage distribution of, 346
— — —, lymph node examination after operation for, 173
— — —, lymphatic channels of spread, 348
— — —, mass screening of total female population for, 170
— — —, radiation and intravenous haematoporphyrin therapy, 348
— — —, radioactive gold therapy, urological complications, 526
— — —, rectal and bladder injuries after radiotherapy, 523
— — — recurrent after surgery, treatment, 348
— — —, recurrent, radioactive cobalt treatment, 348
— — —, recurrent, total pelvic exenteration in, 523
— — —, squamous-celled electron microscopic study, 672
— — —, surgical procedures after failure of radiotherapy, evaluation, 523
— — —, treatment at Chelsea Hospital for Women, 347
— — —, virus injection in, 348

Chloramphenicol with hydrocortisone for nipple fissures, 517
Chlorothiazide in toxaemia, 673
Chlorpromazine, analgesic-potentiating effect in labour, 517
— in premature labour, 336
—, prolonged administration, amenorrhoea after, 672
Cholecystography, limitations in pregnancy, 514
Chordotomy for pain of genital carcinoma, 521
Chorion fluid, protein structure, electrophoretic study, 1025

Chorionepithelioma with widespread metastases resistant to testosterone proprionate, 672
Chorionic membrane, periodic acid Schiff-positive substance in, 671
— tissue changes in abortion, 157
Chromatin, sex, demonstration in mucosal smears and other tissues, 672
Cirrhosis, *see* Liver
Cobalt, radioactive, in recurrent cervical carcinoma, 348
Colposcope, use in gynaecology, 346
Colposcopy in evaluation of cervix uteri, 1034
—, routine, influence on stage distribution of cervical carcinoma, 346
Condyloma acuminatum, treatment, 520
Constipation, post-partum, 1033
Cortisone and tetracycline in resistant pelvic inflammatory disease, 520
Cretinism, normal pregnancy in, 1029
Culdoplasty, posterior, for correction of enterocoele during vaginal hysterectomy, 526
Cushing's syndrome, pregnancy and delivery after bilateral adrenalectomy for, 337
Cyst, dermoid, haemolytic anaemia associated with, 860
— of vestibule of vulva, anatomical and clinical features, 521
Cystitis, candidal, in pregnancy, 337
Cystoscopy in post-menopausal haemorrhage, 168

Death, *see* Foetus, Infant mortality, Maternal mortality
Deciduosis of the cervix, 1038
Diabetes, *see also* Prediabetes
— in patients with cancer, 344
—, maternal, blood sugar levels of newborn infant, 342
—, —, embryopathy and perinatal mortality in, 342
—, placental histology in, 159
Diamox, *see* Acetazolamide
Diathesis, haemorrhage, due to increased capillary fragility secondary to ovarian deficiency, 683
"Diuril", *see* Chlorothiazide
Diverticulum, urethral, assay of 121 cases, 1040
Dolantin, action on uterine musculature of sheep and goats, 152
Drug administration in pregnancy, effect on foetal heart, 671
Dysmenorrhoea in girls, relation to sports participation, 857
—, relaxin treatment, 682
Dystocia, constriction-ring, 162
— due to axial rotation of uterine, 338
—, shoulder, 1032

Eclampsia, aetiology, 511
— —, toxic factor in amniotic fluid in, 335
Eclampsia, afibrinogenaemia in, causing severe haemorrhage, 335
— due to absorption of eclamptogenic toxins from placental infarcts, 154
—, phenothiazine derivatives in, 511
Effusion, pleural, and female sterility, 168
Electrocardiography, foetal, abdominal and intra-uterine leads in, 1026
Electrolyte distribution in normal and toxaemic pregnancies, 673
Endometriosis and pregnancy, 338
—, experimental production by oestrogens, 349
—, stromal, 172
—, —, duration, recurrences and metastases, 524
—, —, urological complications, 687
Endometrium and ovary, comparative morphological study during menopause, 858
— carcinoma and hyperplasia, experimental production by oestrogens, 349
— —, association of granuloma cell tumour with, 171
— —, association of Stein-Leventhal with, 171
— —, diabetes with, 344
— —, endocrine abnormalities in, 349
— —, pre-operative radium in, disadvantages, 1039
—, cystic glandular hyperplasia, causing menopausal dysfunctional haemorrhage, radiotherapy, 682
—, granular stroma cells in, 1025
— irradiation, long-term effect, 349
—, metachromatic granules in, 167
— sarcoma, duration, recurrences and metastases, 524
— sensitivity to ovarian hormone, result of anaesthetic infiltration of superior sympathetic cervical ganglion on, 682
Enterocoele, correction by posterior culdoplasty during vaginal hysterectomy, 526
Ergometrine in third stage of labour, comparison with methergin, 162
— with hyaluronidase, speed of action, 1032
Erythroblastosis foetalis, impending foetal death *in utero*, maternal syndrome, 342
— —, management, 342
Ethinyl-nor-testosterone, pharmacology and clinical use, 858
Exenteration, total pelvic, in recurrent cervical carcinoma, 523

Fallopian tube, experimental substitution of isolated segment of ileum for, 687
— — obstruction, diagnosis with indigocarmine or methylene blue, 525
— — —, experimental work on plastic operations for, 524
Fallopian tube obstruction, hydrocortisone as adjuvant in surgical treatment, 1039
— — —, intra-operational localization, 350
— — patency, phenolsulphonephthalein test for, 859
Fibroid, *see* Fibromyoma
Fibromyoma in pregnancy, surgical treatment, 676
—, submucous, complicating pregnancy, labour and delivery, 514
Fistula of urinary tract, classification, 1040
—, ureteroperitoneal, with urinary ascites, 527
—, uretero-vaginal, treatment, 527
Foetus death in toxaemia, 512
—, length and maturity *in utero*, radiological estimation, 154
— mortality, abnormal development of umbilical cord and vessels as cause of, 681
— prognosis in toxaemia, 155
Folic acid, maternal and foetal, comparison at parturition, 677
— —, serum levels in mother and infant, comparison at parturition, 677

Genital tract, heteroplastic bone and cartilage in, 861
Glucose, intravenous loading test of carbohydrate tolerance in pregnancy, labour and puerperium, 513
Gold, radioactive, in cervical carcinoma, urological complications, 526
—, —, intraperitoneal, for ovarian tumours, 686
Gonadotrophin, chorionic, variations in level in threatened abortion, treatment, 513
— estimation in prognosis of course of pregnancy, 153
Granuloma cell tumour, association with endometrial carcinoma, 171

Haematoporphyrin, intravenous, with radiation therapy of cervical carcinoma, 348
Haemoglobin, foetal, in maternal circulation, associated with anaemia of newborn, 163
Haemolytic disease of newborn, ABO incompatibility in aetiology of, 163
— — —, ABO, management, 342
— — —, clinical experience, 341
— — —, incidence in 246 Rhesus incompatible pregnancies, 341
Haemoperitoneum, massive, in abdominal pregnancy, 515
Haemoptysis, severe, in pregnancy, mitral valvotomy for, 676
Haemorrhage, accidental ante-partum, recurrent, followed by afibrinogenaemia and anuria, 156

Haemorrhage, dysfunctional uterine, in menopause caused by cystic glandular hyperplasia of endometrium, radiotherapy, 682
—, — —, surgical diagnosis and management, 682
— in late pregnancy, potassium permanganate burns of vagina as cause of, 1028
—, intra-aortic transfusion in, 862
—, obstetrical, blood transfusion in, blood volume estimations and, 156
—, post-menopausal, cystoscopic examination, 168
—, pulmonary, in newborn, associated with intense uterine contractions, 164
—, severe, due to afibrinogenaemia in eclampsia, 335
Head, foetal, unengagement due to lumbosacral angulation, 678
Heart disease, maternal, prognosis for infants, 158
— —, rheumatic, in pregnancy, conservative treatment, 158
—, foetal, effect of maternal drug administration on, 671
Heartburn of pregnancy, mode of action of Prostigmine in, 854
Hermaphroditism, pseudo-, male, biochemical investigation, 683
—, pseudo-, male, hormone tests and endocrine causes of, 519
— with rudimentary and hypoplastic gonads, 860
Hernia, diaphragmatic, and pregnancy, 158
—, inguinal, in infants, involvement of uterus, tubes and ovaries in, 164
—, umbilical, repair during puerperium, 341
Hirsutism, obesity and menstrual irregularity syndrome, 167
Histamine, role in implantation of fertilized ovum, experimental study, 672
Hodgkin's disease, pregnancy in, 337
Hormones, sex, influence on tumour growth in rats, 685
Hyaline membrane, pulmonary, contamination by fluid of birth canal, experimental study, 1033
— —, —, in newborn infants, significance, 1033
Hyaluronidase and ergometrine, speed of action, 1032
Hydatidiform mole fluid, protein structure, electrophoretic study, 1025
Hydramnios, *see also* Polyhydramnios
—, analysis of 213 cases, 1029
—, early sign of oesophageal atresia, 164
Hydrocortisone, use in surgical treatment of tubal obstruction, 1039
— with chloramphenicol for nipple fissures, 517
5-Hydroxy-indolyl-3-acetic acid excretion during menstrual cycle, 335
Hyperemesis gravidarum, buclizine hydrochloride in, 674, 1026
Hypertension, malignant, successful pregnancy during treatment for, 674
— of pregnancy, indications for and limitations of hypotensive drug treatment, 673
Hysterectomy for benign lesions of uterus, 526
—, psychological adaptation to, 349
—, total, vaginal inversion after, surgical treatment, 863
—, —, vaginal prolapse after, operative treatment, 173
—, vaginal, posterior culdoplasty for correction of enterocoele during, 526
Hysteropexy in total genital prolapse using strip of rectus sheath, 525
Hysterosalpingography, intravaginal measurement of radiation dose in, 154

Ileum, isolated segment, experimental substitution for Fallopian tube, 687
Infant mortality in Belgium, statistical study, 680
— —, perinatal, "avoidable" loss in, 517
— —, —, effect of prolonged pregnancy on, 681
— —, —, in Germany, 1947–1956, 517
— —, —, of Caesarean section, 518
— —, —, of infants of diabetic mothers, 342
—, newborn, anaemia in, associated with appearance of foetal haemoglobin in maternal circulation, 163
—, —, blood volume, influence of delayed ligation of umbilical cord on, 516
—, —, massive pulmonary haemorrhage in, associated with intense uterine contractions, 164
—, —, of diabetic mothers, blood sugar levels in, 342
—, —, oxygen content of blood, method of investigating partial pressure, 1033
—, —, oxygen saturation after obstetrical complications, difficult deliveries and Caesarean section, 163
—, —, pulmonary hyaline membrane in, 1033
—, post-mature, care and treatment, 518
—, —, oxygenation values in cord blood of, 680
—, prognosis with maternal heart disease, 158
Infertility, *see* Sterility
Inflammation, pelvic, cortisone and tetracycline treatment, 520
Iodine, radioactive, passage through breast, clinical observations, 340
Iron, oral or intramuscular, routine prenatal administration, comparison of haematological response to, 854
— therapy, relation of iron content of human milk to, 340

Kidney biopsy in toxaemia, 156
— diseases, vascular, in pregnancy, renal biopsy in multiparae with, 1029
— physiology in normal and toxaemic pregnancy, 511
Kraurosis vulvae, incidence of carcinoma after, 345
Kyphoscoliosis and pregnancy, 159

Labour, analgesic-potentiating effect of chlorpromazine in, 517
—, carbohydrate tolerance in, 513
—, delayed, relaxin treatment, 682
—, effective uterine blood flow during, 1030
— induction, analysis of 1,877 cases in Cape Town, 677
— — by oestrogens in prolonged pregnancy, 671
— —, castor oil in, 1030
— —, elective, dangers of, 1030
— — for postmaturity, stillbirths and, 343
— —, surgical, for suspected placental insufficiency, 856
— length, effect of refined relaxin on, 339
—, premature, chlorpromazine treatment, 336
—, —, reduction of incidence, 678
—, psychoprophylaxis, 677
— simulated by pyelonephritis in pregnancy, 514
—, submucous fibroids complicating, 514
—, third stage, comparison of ergometrine and methergin in, 162
—, — —, recurrent abnormalities, 162
—, uterus contractions, variations in, 161
—, vacuum extractor in, 516
—, vacuum extractor in, indications for use, 339
Lactation suppression by a combination of drugs, 679
— — by ethinyl-nor-testosterone, 858
Largactil, *see* Chlorpromazine
Leucocytes, cytochemical and cytomorphological changes in genital tuberculosis, 344
Leucorrhoea in the young girl, 858
Ligament, broad, tumours of, 171
Lipoma of uterus, clinical report, 522
Liver cirrhosis and pregnancy, 337
Lymph follicles in cervix uteri, 853
— node examination after operation for cervical carcinoma, 173

Malformation, congenital, in infants of diabetic mothers, 342

Malformation, congenital, incidence after maternal rubella, 343
Masculinization of the female foetus, 684
Maternal mortality in England and Wales, critical review of report, 341
Melanoma, malignant, of vestibule and external urethral meatus in 6th month of pregnancy, 1038
Membrane rupture, diagnosis by von Numers fat staining method and Neuhaus crystallization method, 678
— —, premature, clinical study, 161
Menarche, age of, effect on reproduction in patients with carcinoma of cervix uteri and uterus, 522
Meningitis, tuberculous, and miliary tuberculosis in pregnancy, 160
Menopause, endometrium and ovary during, comparative morphological study, 858
—, long-acting oestrogen compounds in, 343
—, sex steroid influence on, 343
— symptoms, control by ethinyl-nortestosterone, 858
—, trichomoniasis in, 169
—, urinary disorders of, 859
Menstrual cycle, capillary changes during, microscopical study, 853
— —, irregularity of stages of, 166
— —, urinary excretion of mucoproteins during, 857
— —, urinary excretion of mucoprotein reducing substances during, 857
— —, urinary excretion of serotonin catabolite, 5-hydroxy-indolyl-3-acetic acid in, 335
— —, variations in body weight and salivary sodium in, 152
Menstruation, irregular, hirsutism and obesity syndrome, 167
— postponement by ethinyl-nortestosterone, 858
Meralgia paraesthesiae in pregnancy, 160
Mesonephroma, a urological problem, 524
Methergin in third stage of labour, comparison with ergometrine, 162
Metrorrhagia due to failure to ovulate, 857
Milk, human, iron content in relation to iron therapy, 340
—, passage of radioactive strontium into, 853
Mittelschmerz, causes and treatment, 683
Mucoprotein reducing substances, urinary excretion during menstrual cycle, 857
—, urinary excretion during menstrual cycle, 857
Myoma, uterine, treatment at Radiumhemmet 1920–1949, 170
Myometrium contractility, endocrine control in uterus of pregnant rabbit, 152

Nephrotic syndrome in pregnancy, 1028
Nipple fissures, hydrocortisone with chloramphenicol treatment, 517

Obesity, menstrual irregularity and hirsutism, syndrome of, 167
Oedema in pregnancy, acetazolamide control, 336
—, pre-eclamptic, acetazolamide treatment, 154
Oesophagus atresia, hydramnios as early sign of, 164
— —, present position, 164
Oestrial and total ovarian extract, comparison of pharmacological and clinical effects in guinea pigs, 682
Oestriol levels in urine in toxaemia, 671
—, urinary excretion before induction of labour and before spontaneous labour, 671
Oestrogen(s) compounds, long-acting, in amenorrhoea and the menopause, 343
—, effect on genital apparatus of castrated guinea pig, 344
— in experimental production of endometrial hyperplasia and carcinoma and endometriosis, 349
— induction of labour in prolonged pregnancy, 671
Orasthin, oxytocin and vasopressive properties, 1030
Ossification, heteroplastic, in female genital tract, 861
Ovary and endometrium, comparative morphological study during menopause, 858
—, blood supply, experimental and morphological studies, 334
— carcinoma, intraperitoneal radioactive gold treatment, 686
— —, mesonephric, 1038
— —, treatment and prognosis, 524
— —, treatment in Würzberg, 1939–1952, 348
— insufficiency, capillary fragility secondary to, causing haemorrhagic diathesis, 683
Ovulation failure causing metrorrhagia, 857
— induction, therapeutic and diagnostic importance, 683
— pain, causes and treatment, 683
Ovum, aborted, sex determination of, 674
— implantation, role of histamine in, experimental study, 672
Oxygen content of blood in newborn infant, method of investigating partial pressure, 1033
— inflation of peritoneum, diagnostic aid in gynaecology, 862
Oxygen saturation of newborn infants after obstetrical complications, difficult deliveries and Caesarean section, 163
— therapy and inhalation anaesthesia for foetal anoxia *in utero*, 1031
Oxygenation, foetal, maternal age and, 342
— values of cord blood in postmature infants, 680
Oxystin, oxytocic and vasopressive properties, 1030
Oxytocic drugs, post-partum, comparative clinical evaluation, 163
— —, synthetic, comparison of oxytocic and vasopressive properties, 1030
Oxytocin in mammary engorgement, 856
—, synthetic and natural, clinical trials, 678

Pain in advanced genital carcinoma, palliation by pituitary transplants, 686
— of genital carcinoma, chordotomy for, 521
—, ovulation, causes and treatment, 683
Pelvimetry, intravaginal measurement of radiation dose in, 154
Pelvis, female, radiological and obstetrical survey, 334
—, retroperitoneal tumour of, 1038
Pentobarbitol sodium, placental transmission, 679
Peritoneal fluid, "spider cells" in, 1034
Phaeochromocytoma associated with pregnancy, 514
Phenmetrazine hydrochloride for weight control in pregnancy, 1028
Phenothiazine derivatives in eclampsia, 511
Phenylsulphonephthalein test for tubal patency, 859
Pitocin drip infusion, critical study of 200 cases, 677
Pituitary transplants, hormonal influence in advanced genital carcinoma, 686
Placenta, bilirubin level in serum of, 671
— histology in diabetes, 159
— — in toxaemia, 155
— insufficiency, suspected, surgical induction of labour for, 856
—, manual removal, without general anaesthesia, 340
